PROFESSIONAL SUMMARY

Final-year B.Tech student specializing in Full Stack Development with hands-on experience building scalable web applications using Java, React, Node.js, and REST APIs. Proficient in cloud platforms (GCP, AWS, Azure), CI/CD pipelines, and Agile methodologies. Expanding expertise in Spring Boot, Angular, and microservices architecture. Passionate about user-centered design and collaborating with cross-functional teams to deliver high-quality, enterprise-grade software solutions.

TECHNICAL SKILLS

Backend	Java, Spring Boot, Spring MVC, Node.js, Express.js, FastAPI, REST APIs.
Frontend	Angular, ReactJS, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Next.js, UX/UI Design
Databases	MySQL, PostgreSQL, MongoDB, SQL Server, Snowflake, Oracle
Cloud & DevOps	Cloud Web Applications, Virtual Machines (VMs), Cloud Infrastructure, IAM (Identity & Access Management), Cloud Monitoring, Cloud Services Uptime, Docker, Kubernetes, CI/CD, GitHub Actions.
AI / ML	TensorFlow, LangChain, OpenAI GPT-3.5/4, LLAMA 2, Prompt Engineering, NumPy, Pandas, Streamlit
Tools	Git, GitHub, GitLab, Jira, Confluence, Postman, Unit Testing, Code Review, Tableau, Advanced Excel Pivot Tables, VLOOKUP / HLOOKUP
Languages	Java, Python, C++, JavaScript, TypeScript, SQL, OOPS, DSA
Data Engineering & Big Data	PySpark, Apache Spark, Airflow, ETL Development, Data Modeling, Data Validation, Data Migration, DataComPy, Distributed Systems, Data cleaning, Data visualization

PROJECTS

ChatRoom — Real-time Messaging Platform | *HTML · CSS · JavaScript · Node.js · Socket.io · FastAPI*

[Github](#)

- Built a real-time chat application supporting instant bi-directional messaging using WebSocket-based communication via Socket.io.
- Designed RESTful API endpoints and applied microservices architecture patterns for modular, scalable backend communication using FastAPI and Node.js.
- Developed a fully responsive chat interface with live message broadcasting, supporting multiple concurrent users with low-latency delivery.
- Implemented user-centered design principles to ensure intuitive UI/UX across desktop and mobile devices.

Plant Disease Detection System | *Python · Streamlit · TensorFlow · NumPy · Pillow*

[Github](#)

- Developed a machine learning web application using TensorFlow (CNN) to classify plant diseases from leaf images with real-time prediction and confidence scores.
- Integrated GPT-4 powered natural language explanations to present disease insights in plain English, improving accessibility for non-technical stakeholders.
- Optimized model inference performance using caching techniques and deployed the application on Hugging Face Spaces with dark mode, image recording, and robust error handling.
- Designed a fully responsive UI optimized for both mobile and desktop, following UX best practices.

Online Code Runner | *HTML · CSS · JavaScript*

[Github](#)

- Built a browser-based code execution platform enabling real-time HTML, CSS, and JavaScript rendering without requiring external IDEs.
- Implemented sandboxed JavaScript execution environment simulating real-world microservices isolation principles for secure, isolated code evaluation.
- Optimized DOM updates to reduce re-render latency, improving performance and delivering an exceptional user experience across desktop and mobile.

EXPERIENCE

Technical Co-Head — IIC TMSLMarch 2024 – Present

- Led the technical division, guiding 5+ project teams and organizing 10+ technical workshops to promote skill development in areas including REST APIs, Java-based backends, and user-centered design.
- Coordinated and managed a college-wide hackathon, handling logistics, mentoring 2 teams, and conducting technical interviews to onboard new talent.

EDUCATION

B.Tech — Electrical Engineering — Techno Main Salt Lake, Kolkata2022 – 2026

Higher Secondary Education — Rajkamal Saraswati Vidhya Mandir, DhanbadMarch 2021

Secondary Education — Kids Garden Secondary School, DhanbadMarch 2019

CERTIFICATIONS

- Foundations of Web Development: CSS, Bootstrap, JavaScript, React (2021)
- CSS and JavaScript Complete Course for Beginners (2021)
- Business Analysis Essentials — Excel, Power BI and Statistics
